# We are... Bedrooms

## it's time to be more adventurous

Ever thought that you need to be more adventurous in the bedroom, or maybe the office? This might be a tongue in cheek question but, today, more than ever, choice and originality are high on the agenda when it comes to choosing your bedroom or office furniture.

That's why, at Sigma 3, we have developed a unique range of designs and finishes.

Whatever your preference, we have a solution. Our latest and most contemporary furniture provides dramatic, clean-line styling heavily influenced by continental trends. If you prefer subtle, timeless designs, we offer a range of understated classics that will not date.

And if you love grandeur and opulence, our intricately finished painted ranges are the perfect choice.

When it comes to combining practicality with style, we are second to none. Enhance and personalise your furniture by selecting from many carefully chosen options and accessories.

Space is not an issue. We specialise in making the best use of even the most unusually shaped rooms, and provide a range of ingenious solutions to give you maximum storage capacity.

Our new wardrobe styles offer over 1,000 colour and design combinations and we now use soft-close drawers on every range.

# Why choose *Fitted?*

Bedrooms come in all shapes and sizes - often with distinguishing features. Chimney breasts, sloping ceilings and uneven walls add character, but they can also cost you valuable storage space. We will redefine the living space for you,

working with the room's features to realise its true potential. Wall to wall, floor to ceiling, our individually designed fitted furniture transforms even the most irregular bedroom.

Slopes no problem!

## ***Bosworth*** *Nordic Grey*

Bosworth is a classic English bedroom design that would grace any home. Shown here in Nordic Grey this natural look creates a calming and neutral environment, perfect for relaxing. Bosworth is available in nine finishes.

Clever storage underneath sloping ceilings makes the best use of awkward spaces.

Items can have more than one use. Choose an upholstered pad covered in a fabric from a range of colours to turn this chest of drawers in to a comfortable seat.

# Milan

## Light Grey

Minimal and timeless with its subtly rounded door design and delicate fluting Milan exudes sophistication and style. Finished here in soft light grey and available in a palette of nine colours.

Pull out tea trays are a standard on all of our bedside units.

Choose a full carcase interior to maximise storage space. Shown here with full length, double hanging rails and slide out shoe racks.

Designer's Tip

Diversity of storage is important in any bedroom. Take advantage of multiple drawer heights and widths to create and style.

## ***Prima Square***

Don't like curves? Consider Prima Square. Sharper, cleaner and timeless in design, this is truly a classic alternative. Angled ceilings present no problems, as with all our designs, this is a range that maximises the use of space to great effect.

Shelving is used to create clever bedside storage.

Use an upholstered pad to create a stylish window seat.

## ***Solo***

Simple, uncluttered and timeless are all words that can be used to describe Solo. Its clean and versatile slab door is available in nine colour options. The look is completed with a heavy brushed steel handle. All of our robe doors can be specifically tailored to any sloping ceiling. This lends a bespoke feel to the bedroom and allows for maximum storage.

Wall cupboards provide valuable extra storage space.

Mirrors and reflections can brighten a room. Solo uses "edge to edge" full mirror doors. Simple and effective.

Sloping ceilings and cramped corners present no problem.

Personalise your room with a padded headboard in one of our designer fabrics.

Consider the huge hotel style headboard on the left. This look has been achieved by mounting two padded headboards together. This is then reflected in the window seat pad opposite.

Window seat drawers add that finishing touch.

# Kingsbury

## White Ash

Uncluttered and refreshingly restrained, this range works on the 'less is more' principle of Shaker design. Kingsbury, available in nine colour options, provides an understated classical look to any bedroom design. Whether you are looking for a traditional feel or a contemporary twist, Kingsbury has the answer.

Stable Robes provide a clever way of turning corners.

## **Sienna** *Graphite*

You can continue this theme with cool highlight fabrics from the Sigma collection for headboards and stools.

Sienna offers a canvas you can texture and layer upon to complete the look. The Sienna door is completed with a slimline edge handle.

Our knee space drawers complete any dressing table. These slimline sectioned drawers are great for jewellery, perfume and trinkets. Here we have gone a step further and positioned two side by side to greater effect, allowing space for larger items such as this upholstered ottoman.
