Country Charm

RANGE: HARDWICK FARRINGTON GREY & OXFORD BLUE

"I've already recommended Sigma 3 to all my friends"

Mrs Cozma's mind was made up when she saw our showroom display at Colchester Avenue.

"There is so much choice, the quality of the furniture, the fitting and the whole experience makes me recommend Sigma 3 to everybody"

A Big Thank You To Sigma 3

From the moment we have stepped into Sigma 3 showroom until our kitchen and bedroom furniture was fitted was all one great experience. Excellent services all the way through. A BIG THANK YOU TO SIGMA 3 and the team - Alice, Edward and Gareth, brilliant service guys, many thanks. We are super happy customers.

Get the *two-tone look!*

Two-tone kitchens offer a unique level of flexibility. They allow you to achieve a kitchen design that's truly personal to you. With our beautiful array of kitchen colours and finishes at Sigma 3, the options really are endless. No matter what look you desire, we guarantee it can be achieved with a two-tone kitchen from us.

Here are our favourite kitchen ideas that are sure to inspire you.

Neutral two-tone kitchen

Achieve a cohesive feel throughout your kitchen with a muted, complementary colour scheme. Sometimes less is more - and choosing two similar tones can result in a design that oozes elegance.

The owner of this large two tone kitchen opted for two calming shades from a neutral palette. The simplicity of this colour scheme allows the classic kitchen's features and pendant lighting to really stand out.

MARLBOROUGH HIGHLAND STONE AND GRAPHITE

ROMA GRAPHITE WITH PORTLAND OAK CABINETRY

Warming woods

Do you have your heart set on one shade for your kitchen, but worry it could be too overpowering?

Two tone kitchens traditionally consist of two different coloured doors - but the addition of warm wood to a uniform kitchen can achieve a two tone feel.

This example uses Portland Oak to bring a sense of warmth to a black modern kitchen. The homely but glamorous drinks feature blends perfectly with the sleek kitchen cabinets. The space retains its dark and dramatic look, but also benefits from the addition of these bespoke touches.

Do you want to add a splash of personality to your kitchen and achieve a two tone look? Then explore our stunning collection of warm wood kitchen design features today.

H LINE HAMPTON OXFORD BLUE AND LIGNA MAYFIELD OAK

Textured Two-Tone

If the base colour of your two tone kitchen is rich and dark, adding some texture can help to break up the room.

The owner of this kitchen chose to soften her deep blue cabinets with some warming wood-effect cabinets.

The shade adds warmth to the cool blue tones, but also adds some natural character to the sleek and modern handleless kitchen design.

Light and Dark

This two tone kitchen features crisp, white cabinets. They blend seamlessly with the light walls to establish a neutral backdrop. Against this, the dark blue kitchen island creates a striking contrast. It instantly becomes the focal point of the room.

By pairing a minimalistic shade with a dark colour statement, you can easily help your favourite kitchen feature to stand out. A light and dark two tone kitchen will truly allow your showstopper kitchen island to shine.

HARDWICK OXFORD BLUE WITH WHITE AND PORTLAND OAK CABINETRY

Vibrant Two-Tone

If you want to stand out from the crowd, why not add a vibrant splash of colour to your two tone kitchen?

This shaker kitchen pairs Highland Stone cabinets with ravishing red colour pops. Against the paler base tone, the rich Claret shade evokes a luxurious feel - without being too overpowering.

We have an array of beautiful colour options that will add individuality to your two tone kitchen. Our soft and feminine Autumn Blush colour and our powerfully purple Mulberry colour are great examples.

George & Becky's *Dream Kitchen*

It's not every day that you get the chance to meet a British & Irish Lion and Welsh rugby international star and double Olympic Silver medal cyclist, let alone help them to plan their dream new kitchen! Take a look at George and Becky North's new space.

H LINE SUTTON LIGHT GREY

Amazing

I can't speak highly enough about the service we've had. From the moment we walked into Culverhouse Cross show room to the final handover has been amazing. Gavin and the Sigma 3 team went through every stage showing us all the options, colours and ideas in depth. Also throwing ideas in we hadn't thought of which truly added to the kitchen. With the help of super fitter Gareth James the beautiful design came to life. Gavin and Edward were always accessible on the phone and email throughout the whole process. So a big thank you from myself and Becky. When the time comes for another kitchen I know where I'll be going. (Hopefully not needing another for a while)

5 reasons to have a *Utility Room!*

It's no surprise that utility rooms are becoming more and more popular. They're easy to achieve and make a lovely addition to a home. A common dilemma that homeowners face is whether to opt for a larger kitchen or create an extension for a utility room...

We all know that the kitchen is meant to be the heart of the home, a place to spend quality time with family and friends whilst we cook and eat. So why is it we often choose to keep our washing machines and tumble dryers there?

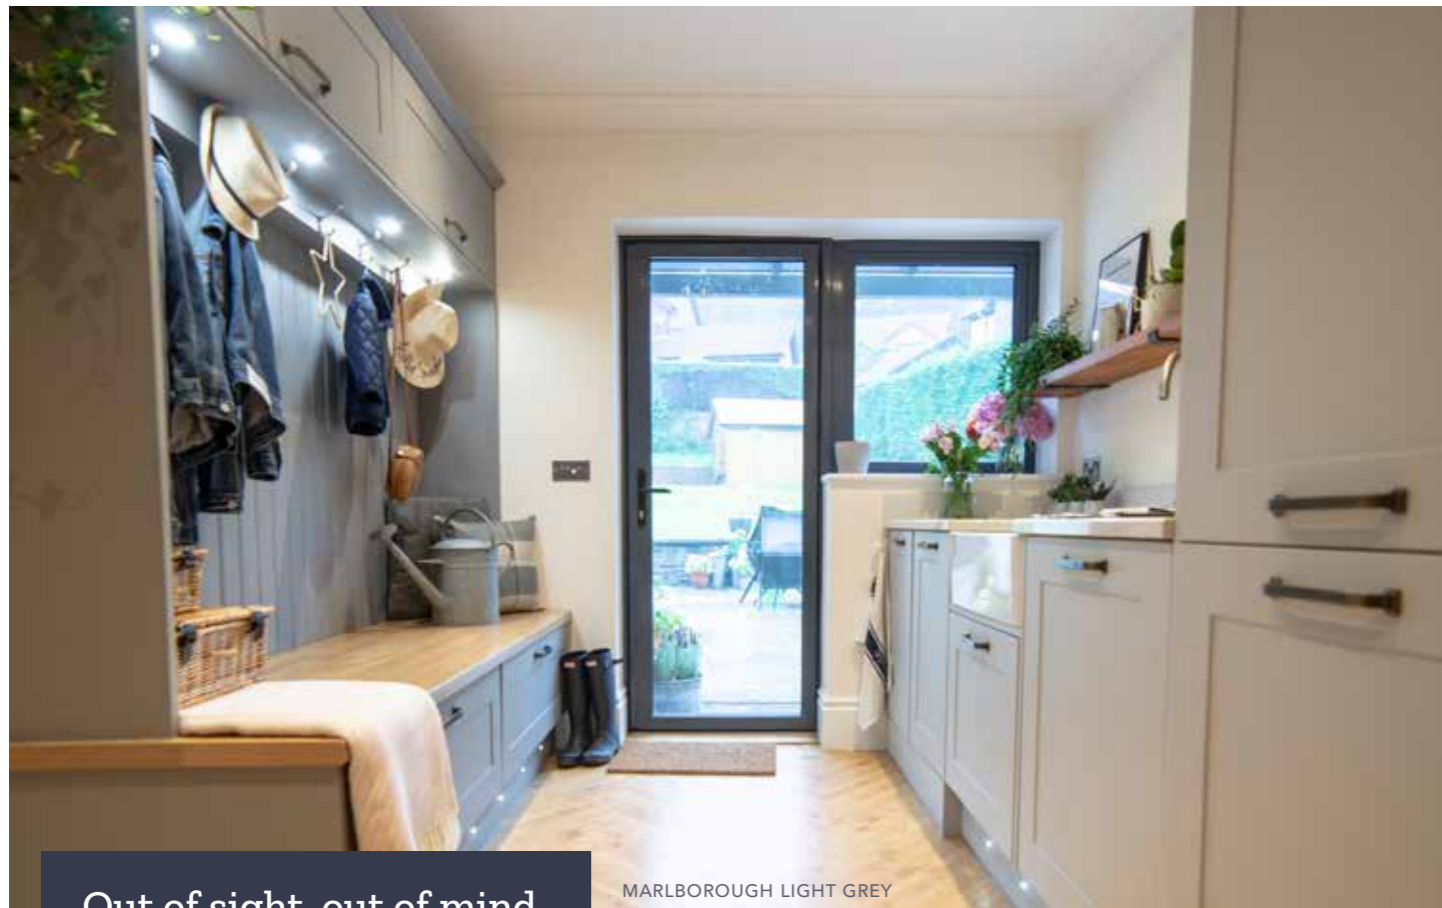

SHELFORD INKWELL

Gain more kitchen space

Not only do laundry related appliances take up valuable space in our beloved kitchens, but the addition of washing baskets, dirty clothes, ironing boards, clothes airers and laundry products can get in the way of workflow in the kitchen.

Utility rooms give a home to laundry related items and free up kitchen space. You could even think of your utility room as an overflow kitchen to store lesser used kitchen appliances, long-life goods and bulk items or even a freezer. A good idea is to install tall cabinets so that you can place the tumble dryer and washing machine on top of one another for even more space!

MARLBOROUGH LIGHT GREY

Out of sight, out of mind

Hide the evidence of a busy day's work away from guests and conceal it behind the closed door of your utility room. It's the perfect place to store clutter and worry about it later when guests leave. Not only this, muddy footwear and damp clothing can be kept there to prevent unwanted muck creeping in to the rest of your home and then washed and wiped with ease.

SOLVA SCOTS GREY

Perfect for open-plan living

Utility rooms are all the more convenient if your kitchen is open plan. The sounds of the washing machine and tumble dryer running are concealed behind closed doors so you can go ahead and chat with family or friends while you eat or cook, or watch television in the living area without interruption.

Beautiful practicality

Let's be honest, there's a lot of other things we'd prefer to be doing than laundry. However, there can be something quite therapeutic about washing, so why not create beautiful space that you can enjoy being in. Colours have a big impact on how we feel, so why not opt for a calming shade like blue to create a relaxing space for housework. Open shelving also works perfectly in utility rooms. You can use them as a pretty design feature to place flowers, photoframes and ornaments upon or alternatively use them more practically by placing cleaning and laundry products. This will allow you to access them with ease and easily see which products need renewing.

SHELFORD GRAPHITE

MAGNASPACE IN LEGRABOX R-DESIGN

Extra storage

It's a given that utility rooms provide a dedicated space for ironing boards, vacuum cleaners, washing baskets and other laundry-related items but they can also be a multifunctional space perfect for extra storage. A utility room can be a handy place to store bulk items, long-life food, recycling bags and lesser used kitchen appliances, making it easier to keep your kitchen organised. Utility rooms are usually the smallest room in the house so storage options that make the most out of your space like a corner pantry or a pull out larder are perfect options.

Sam's Perfect *Shaker Kitchen*

Kitchen designer, Emma, took on board all of Samantha's ideas and requirements and together they decided that our beautifully traditional Hardwick range would look impeccable within the open plan cottage space.

RANGE: HARDWICK GRAPHITE

Great kitchen and a great team!

Emma and Stewart at the Abergavenny branch have helped me to plan and design a fantastic new kitchen. Emma's design talents were wonderful when it came to making the most of the space, reducing costs and considering usability. The quality of the kitchen is excellent - far more robust than other, more common high street brands. The fitter was really impressed with the units, appliances, instructions and accessories. The design work really shone through and I was amazed at how much space Emma had seemingly created from scratch. I wouldn't hesitate to recommend Sigma3 kitchens and the team at Abergavenny.
