# Celebrating 50 years

WITH SIGNIFICANTLY BETTER SAVINGS

*Sigma 3 Kitchens are proud to celebrate over 50 years of creating high-quality kitchens and bedrooms.*

We're a second-generation family run business that was established in 1975 by Brian Lakin, who began by making kitchens for friends and family out of a barn in Barry, South Wales. We have kept our Welsh heritage – our 80,000-square-foot factory now employs over 200 people and isn't far away from where we first started. We've recently invested in a new 130,000-square-foot factory that will provide employment and opportunities to our local community. We're environmentally conscious – we only use FSC-certified wood and have a zero-to-landfill policy.

# The Sigma 3 Times — A BRIEF LOOK THROUGH HISTORY

## *Sigma 3 Ltd Founded by Brian Lakin*

After leaving school in 1972, Brian began working as a cabinet maker in Barry. His passion grew as he crafted units for family and friends in his parents' garden shed.

With rising demand, he set up a workshop in an old Nissen hut on his uncle's farm. On January 13th, 1975, Sigma 3 Kitchens Ltd was born, starting a legacy in kitchen craftsmanship.

# Turning a *Wish List* into a Reality

*“At first I thought I couldn’t have everything I wanted. Emma did everything in her power to make sure everything on my wish list could be granted.”*

When Beth and her family decided to create their dream kitchen, they knew exactly what they wanted: a space that combined modern functionality with a traditional, timeless feel. After researching several kitchen companies, they chose Sigma 3, and it was the expertise and approach of designer Emma that truly sealed the deal.

“Emma was fantastic. She was patient, knowledgeable, most of all, she listened to our needs and what we wanted from our kitchen,” Beth explains. With a new extension in place, the family was determined to make the kitchen everything they imagined – but as with any ambitious design, there were challenges along the way.

Initially, certain elements, like a hidden utility room and a Breakfast Dresser, seemed impossible within the space. “At first I thought I couldn’t have everything I wanted,” Beth recalls. But Emma worked closely with the builders, reconfiguring the layout and relocating appliances. Even a structural steel beam was cleverly concealed by a corner larder, allowing the Breakfast Dresser to fit perfectly. “It was completely overcome. Emma did

everything in her power to make sure everything on my wish list could be granted.”

Beth also found the Sigma 3 showroom invaluable. Being able to walk through different kitchen displays helped her visualise finishes, colours, and layouts. The Ashbourne Beach House cabinetry immediately stood out. “We felt it was something we hadn’t seen before and really thought it would work well to keep that traditional feel,” she says. For the island, they chose Highland Stone for a striking contrast, while the Portland Oak cabinet internals offered a sleek, stylish finish even when drawers were open.

Storage and practicality were equally important. The Lansbury corner larder provides a perfect solution for keeping items out of sight without compromising on style, while the hidden utility room supports Beth’s minimalistic approach. “The larder is a big hit for me in terms of hiding things away, but still looking really sleek,” she notes. The spacious island also doubles as a family hub, perfect for meal prep or keeping children entertained with crafts and colouring.

*“Emma was fantastic. She was patient, knowledgeable, most of all, she listened to our needs and what we wanted from our kitchen.”*

Six months on, Beth couldn't be happier. "There's nothing I would change about it. The design, the placement of everything - it really suits all of our needs." Her satisfaction has been so complete that she's returned to Emma for a new wardrobe project, confident that Sigma 3 will deliver again.

"Emma listened to what we needed, went away, worked with it, and came back to us. So patient. I really can't recommend them enough," Beth concludes.

With thoughtful design, clever problem-solving, and finishes that are as beautiful as they are practical, Beth's Sigma 3 kitchen is the perfect example of turning ambition into reality.

Delighted that our new kitchen has turned out exactly as Melina predicted and designed. It has been a completely stress free experience from the very initial drop into the showroom up to the final tweak when I requested a slight addition. We love the quality of the products. Everyone showed fantastic knowledge of the options available to us and could interpret what we wanted and guide us to the best solution. Highly recommend.

**Esher**

We tried several companies locally and further afield but settled on Sigma 3. We did not regret our decision and the company certainly went the extra mile to create us a wonderful kitchen and utility room. Lacro was always on the end of the phone and gave us masses of encouragement and great advice. We are now the proud owners of a sleek, modern kitchen that has totally transformed our house.

**Abergavenny**

We've recently had a new kitchen from Sigma 3's Newport branch! Fantastic service & communication from start to finish! We had a meeting with Dave who discussed our ideas and options available and put these into a design we were super happy with. The process was very smooth and they kept us up to date with progress, dates and what to expect.

**Newport**

This company does everything right. The kitchens are of good quality, the sales staff put the customer's interests and budget first, the kitchen is delivered with all precautions to protect your property, the kitchen fitters work according to schedule, and their work is of a very high standard. Needless to say, all the staff are very helpful and go the extra mile.

I wish to thank the whole Sigma 3 team for the amazing experience I received from the start, with Negar's design of my kitchen and her knowledge enabling me to make my decisions. I was kept up to date at all stages with Edward and Louise's assistance. The kitchen fitters and electrician did a wonderful job. Everyone was so professional. Sigma 3 Kitchens are high-end quality I would have no hesitation recommending this company.

The Swansea team have been absolutely wonderful from start to finish, far exceeding anything I could have hoped for, I couldn't speak more highly of my experience. I made several visits to the showroom, and every single member of staff went above and beyond to help! My installation manager, Tony, made the whole process seamless and completely stress-free. A huge thank you to every member of the team. I'm absolutely delighted with everything!
