Built-in appliances

# Built-in Appliance Selections Guide

---

## Making things simple

Choosing appliances can be very complicated and here at Sigma 3 we like to make things as simple as possible, which is why we've created our Selections Built-in appliance guide. What you will find in the following few pages is the very best models from our chosen suppliers all presented in a simple way that makes choosing easy.

Each appliance has a simple specification and pricing guide which will give you not only an indication of the price but where it sits in relation to other options.

Choosing from these selections also means there is less likelihood that your order will be affected by increasingly common supplier shortage delays as stocks are held in a UK warehouse.

Don't worry if you can't find what you are looking for in these pages. Our team of design experts will talk you through other options which we can also supply to complement your kitchen choice!

# Meeting your *Budget*

---

We've selected a range of appliances to suit every kitchen choice, budget and lifestyle. Choose from technologically advanced appliances with superior features to appliances that are simple to use and offer great value for money.

The choices in our selection can be combined with matching appliances and our expert design team will be able to guide you through this choice making combining products that fit your kitchen an enjoyable experience.

To make your choice even simpler we have given each appliance a pricing guide which is shown below:

£££££	Under £300
£££££	£300 – £500
£££££	£500 – £750
£££££	£750 – £1,000
£££££	£1,000 - £1,250
£££££	Over £1,250

The choice is yours and whichever appliance you choose we are sure you will be delighted.
