# Accent Colours for Grey Kitchens

Whether used daringly or subtly, these accent colours for grey kitchens will help you create a scheme that reflects your style and personality.

## What is an accent colour?

An accent colour is a shade used to add interest to a grey kitchen. You might decide to subtly infuse accent colours to compliment your scheme or create colour pops using bold coloured features instead.

Whatever way you choose to use your accent colour, its primary focus should be to enhance the design of your grey kitchen.

HARDWICK HIGHLAND STONE AND OXFORD BLUE

## What colours go with grey kitchen cabinets?

Grey kitchen cabinets work with a substantial selection of colours. Consider whether you would prefer a warm grey colour palette or a cooler look. One thing is for sure, there are many ways to create a scheme that works for you.

## Modern wood accents for grey kitchens

Wood textures complement various colours, but natural wood tones look especially good with grey kitchens.

This homeowner has opted for dark grey kitchen cabinets and infused wood accents using handle rails, bar stools, and kitchen island doors. This combination has created a warm Scandi scheme that looks fantastic!

## Classic wood accents for grey kitchens

Using the kitchen's storage features is a perfect opportunity to incorporate luxurious wood accents, including Tuscan Walnut crate drawers, wine storage and an open drinks cabinet.

H LINE SUTTON NEW FOREST WITH SCOTS GREY WITH METALIX BRONZE

## Blue accents for grey kitchens

When it comes to accent colours for grey kitchens, blue is a firm favourite with our customers. But, don't be fooled. Blue accents are far from a fad, and we have no doubt this colour combination will stand the test of time.

HATFIELD HIGHLAND STONE WITH INKWELL

## Metallic accents for grey kitchens

Another way to add warming accents to a grey kitchen is with metallic finishes.

The modern space has been completely transformed by simply adding metallic bronze handle rails and plinth. The addition of bronze splash backs also adds a reflective and warming element to the space.

## Metallic accents for grey kitchens

Teaming metallic accents with light grey and wood finishes creates an impactful, cool palette that will be sure to bring personality to any modern kitchen design.

H LINE SUTTON AUTUMN BLUSH WITH WHITE

## Pink accents for grey kitchens

Pink may seem like a bold choice for some, but pink can create a delicate, soothing effect when paired with grey kitchen cabinets.

Our Autumn Blush finish has been used sparingly, only featuring on the kitchen island. However, the grey kitchen cabinets provide a neutral backdrop allowing the pink kitchen island to pop, and it looks fantastic!

If you love pink but are worried about having kitchen cabinets, you can inject pink accents into your scheme using features that can be easily changed, such as splash backs or appliances.

ASHBOURNE HIGHLAND STONE

## Light Blue accents for grey kitchens

Light Blue kitchens can bring a fresh, coastal appeal to a kitchen design. Our Coastal Mist finish blends perfectly with Light Greys and Whites. Choose a timeless shaker style for an on-trend finish. Or, opt for a minimalistic and modern flat slab design with or without handles!

## Spacious cabinets

The innovative design of our kitchen cabinets eliminates the need for the disruptive centre posts seen in standard kitchen cabinets. As a result, you'll benefit from far more space and uninterrupted access to your kitchenware.

What's more, our kitchen cabinets' unmatched strength and stability can withstand the demands of even the busiest of households. You can rest assured that your kitchen cabinet will last for years to come, no matter what your lifestyle requirements.

# Everything you need to know about styles of kitchen cabinets

When it comes to kitchen cabinets, there are options galore - with such a wealth of choices, knowing where to begin can be a challenge. There are 16,000 possible configurations with our cabinets, so whatever the size and shape of your space, there's a kitchen cabinet style that's perfect for you.

## Sliding doors

Kitchen cabinets with sliding doors are a practical way to make a design statement in your kitchen. Sliding doors are a great alternative to standard doors as the side-to-side soft close mechanism eliminates doors protruding into walking spaces.

Our kitchen cabinets with sliding doors come with the added benefit of integrated lighting, bringing an overall unique look to your home.

## Glass doors

Cabinets with glass front doors make an elegant addition to traditional shaker kitchens and allow you to showcase beautiful crockery and kitchenware.

You probably won't want to have glass fronts on every cabinet, but glass doors look beautiful when combined with other door styles and help break up the uniformity of other kitchen cabinets.

## Bifold doors

Kitchen cabinets with bi-fold doors look great in any kitchen, particularly in kitchens where there is limited space for doors to open into.

The design of bifold doors consists of fastened panels and hinges that allow the door to collapse and expand in a single motion, taking minimal walking space.

## Organised kitchen cabinets

The kitchen pantry cabinet is the perfect choice for households that love an organised home. Our kitchen pantry, The Hathaway can be personalised to your every need and a beautiful way to bring a bespoke touch to a traditional kitchen.

When it comes to kitchen cabinets, corners can be tricky. Luckily, we have the solution. Our kitchen cabinets can be designed to fit perfectly into otherwise wasted corner spaces. If you want a walk-in kitchen pantry cabinet but don't have the space, a corner pantry is the next best thing!

# *Manon's Great British Kitchen*

We caught up with Great British Bake Off star Manon Lagreve whose kitchen is filled with small kitchen ideas perfect for compact city apartments.

**RANGE: SUTTON SCOTS GREY**

“The kitchen is such an important part of my life and home”

### Small kitchen ideas with Bake Off star Manon

The kitchen plays a significant part in day-to-day lives, especially for Manon Legreve.

Since appearing on The Great British Bake Off, Manon has spent her days baking delicious treats and creating recipe videos in her beautiful London home.

Unfortunately, the design of her small kitchen made creating baking content feel like a chore. Manon described the kitchen as dark, gloomy and lacking practicality.

So, the hunt for Manon’s new kitchen began. Manon met with Esher kitchen designer Oliver Willcox who immediately provided Manon with an array of small kitchen ideas to improve her space.

## The design process

Ollie showed Manon our selection of stunning light grey finishes, perfect for lightening up the small kitchen. Manon opted for our modern kitchen range Sutton in our stunning Scots Grey finish.

Beautifully classic brushed gold handles and a gold tap were incorporated into the design to create the traditional feel that Manon was seeking. In addition, open shelving was added above the sink area to enhance the traditional look and simultaneously open up the space.

Pull-out storage features were incorporated into the design to make the most of otherwise wasted corner cabinet space.

## The outcome

The combination of open shelving, gold features and flat slab doors has created a beautifully bright space that's both modern and traditional.

We love how Manon's used her open shelving to put her stamp on the design of her small kitchen. Beautiful colourful baking equipment sits on the shelves creating an eye-catching display.

The smooth, wrapped finish of the Sutton doors require little maintenance, which is perfect for a busy baking environment.

Manon continues to create mouth-watering baking content on her Instagram page.

## Divide and conquer

Storage is the key to organisation and keeping your space calm and tranquil.

# Organise your perfect **FITTED BEDROOM**

Sort out your beloved bedroom with these easy ways to conquer the clutter.

## Everything in its place

Rather than piling everything into one cupboard and having to move items before you reach what you actually need, opt for a space that you can subdivide. This way you can make sure every item has a home.

## Don't forget your accessories

Accessories always need a perfect space to be stored safe and sound, so why not include some dividers to neatly display your favourites.

### Space-saving and chic

Sliding doors are both space-saving and chic, they can blend into the background or take centre stage. Rather than plain glass, mirrored panels are a clever way to make the room look bigger and still keep a classic charm to the design.

### Declutter the window

Increasing natural daylight is key when you want to give the illusion of space. Replacing curtains for blinds or shutters will also let in maximum daylight.

### Colour tricks

Deep and dramatic shades and patterns can help to make your room feel spacious as long as you limit the scheme to a single colour in a range of tones.

## Perfectly organised storage

If you like to see everything in its place when you open your wardrobe door, then our range of accessories will suit you. Choose from slide out shoe racks, counter balanced hanging rails, pull-out racks and even glamour units!
